NORTHWEST MICHIGAN INDUSTRIAL ASSOCIATION

Northwest Michigan — May 13, 2016 —

Today the Northwest Michigan Industrial Association announced the five recipients for their Annual \$1,000 Scholarship Awards.

“We received the highest number of applications this year, more than we have received for several years [27]. It was a very difficult decision as all the applicants are of the highest caliber and certainly all are deserving. We were really impressed with not only the academic accomplishments of all the applicants but their extensive volunteer, sports and extra circular activities and additional academic programs, for instance being dedicated and involved with robotics teams. We wished we could have awarded all 27 of the applicants each a scholarship”, said Dorothy Felton, President of the NWMIA.

In order to qualify, the applicants must have been currently enrolled or accepted in an accredited college, university or skilled trade college program, and full or part-time student with an emphasis on manufacturing and industrial related course work. Dorothy commented, “It came down to choosing the top 5 applicants that were the best fit for the scholarship this year”.

The Northwest Michigan Industrial Association established in 1974, represents seven counties; Emmet Charlevoix, Antrim, Otsego, Grand Traverse, Cheboygan, and Kalkaska. Our Board of Directors manages the association.

CONGRATULATIONS!

Alexander Newman: Michigan Tech to study Mechanical Engineering

Chris Marsh: North Central Michigan College and transfer to University of Michigan to study electrical engineering

Thomas Brandell: Michigan State University to study Computer Engineering

Christian Kniat: Michigan Tech to study Mechanical Engineering
